

INTERNATIONAL MOBILITY CONTRIBUTIONS A.Y. 2023/2024

At the meeting held in July 25th, 2023, the Board of Directors of the Politecnico di Milano resolved the criteria for the allocation of contributions for International Mobility for the a.y. 2023/2024.

Following you find the table of contributions, which is defined on the basis of two criteria:

- amount of the ISEE value (or the so called "ISEU Parificato"), if submitted by the student, for years 2022 or 2023. If presented in both years, the most recent ISEE will be taken into consideration. It is important that the ISEE is submitted and accepted at the time of the preparation of the mobility contract, because once the contributions are defined, they cannot be changed following the submission of a new ISEE.
- Country of destination, according to the subdivision defined by the Erasmus Commission as regards the Countries participating the programme, based on the cost of living in the host Country. The Politecnico di Milano then equates non-European Countries with European Countries with higher cost of living.
